Light Run of Offerings, Quality Averaged Good.

UP TO \$3.62 1-2

thing Sold.

The Wichita hog market was a strong five cents bigher, with light receipts, but cenerally increased quality. The quality was generally pretty good, only about one car out of the day's receipts being skippy and common. The average weight was 222 pounds, against 222 on Thursday, and this was fairly representative of the and regular, being in the main good, well-rounded porkers, and such s sell most easily on this market. The uson made was light and the bulk of this branch sold from \$150 to \$1.00, but the quanty was widely varying in this end of the bog business, the weights running from 20 to 25. The tops for the flay were put on the next to last two loads to be weighed up, both ours being well finished hogs of 344 and 347 pounds. Both seld to Dold and both were top loogs for the day easily. The rest of the receipts soid up well and the better top mogs for the day easily. The rest of the receipts said up well and the better grades had no trouble in fluding a ready market, the buyers being on the ground for any good, desirable hogs which makes. come in. The first past of the day was compared with the same period sat year practically lifeless, as the few scattering is about 200,000." receipts came in so slowly that it was not some late, most of the heat of the carstuff arriving by late trains, and all parties interested waiting until the last to
tinish up whatever business might be
waiting. All hour received at the yards
through the day wets disposed of readily,
and many more could easily have been
taken at the suffer prices recorded. The
taken at the suffer prices recorded. The
market will weigh from 50 to 100 pounds. pens were empty at the close and some of the buyers were disappointed that they t get more slaughter hogs. Only ew loads were assurted, and the outs of coarse heavies and light pigs were unusually light, most of the car lots year. selling straight. It was on the whole a The good day so far so quality and prompt ould have been used on the higher

GENERAL STATISTICS.

National Live Stock Reporter: "A lot of cattle, 29 head, arriving at Santiago easy to tune up any marked onthus: of cattle, 29 head, arriving at Santiago ssm. The bulk of the day's business was de Cuba, from New Orleans, this week, done late, most of the best of the car was sold out at \$35 per head. The butcher

more than cattle of the same age this time fast year. The output will be about half of what it was last season. A larger percentage of range raised cattle will get to market this year than any previous

The money for stockmen in the future is to be made by combining farming and stock raising. This amaignmention will have to take place in time as the ranges are being so universally cut up in this section of the United States. Ranges are a thing of the past. The advance of set-tiers to the west and the rapid strides that are being made in agriculture have doomed the ranges and they are rapirdly going out of existence. In the future far-mers will make money by raising alfalfa for runge men. The size of the herds will not be reduced so much, but the cattle will be confined in a smaller area, and will have to be fed. The feed will either have to be raised by the owner of the stock on his farm lands, or purchased from farmers who will make that their usiness.-Ft. Worth Live Stock Reporter. Texas Farm and Stock Journal: "The semand for sheep to be placed in the feed lets has been so strong as to keep prices at a point which have made feeders somewhat uneasy, but strong as has been the

deman the number of sheep so far golds to the markets has been about 25,000 less than to the same date last year. During the last few days there has been some decline in prices of the poorer qualities, but ranchmen are so strongly inclined to re-stock the western ranges that prices

Be it understood that the Eagle's Stand-ard War Atlas is complete in every detail. There is no body of land or water on earth that it does not clearly show. Not only that, but the maps have rare artistic beauty. Finer colorings are not shown in the expensive atlases which cost gram or more. The Engle atlas costs only 35 solute

But Peace Is Looked to to Help Trade

WHEN CONQUERED LANDS

Own Use

New York, July 29,-Bradstreet's tomorrow will say:

While as yet showing little actual effect upon distributive trade, there is evidence that the improved prospects that peace will make better markets for American products have given a more hopeful tinge to the trade sutlook, more particularly mainly from the western part of the country, and in the markets of that section are reported signs of the ground-swell of demand. Signs of cumulative improve-ment come from the iron and steel industry, more particularly from west of the Alleghonies, where slight advances in prices accompanying a good volume of iomestic and export pusiness are reported. Expected activity in ship-building is reflected in the demand for plates at eastern points. A rather better tone is found in the anthracite coal trade in which, as a result of another one of those numerous gentlemen's agreements," prices have been advanced at the west from previously ow cut rates. The situation in cereals is hardly as extisfactory as could be wished, cash prices being lower for the week in face of probably record-breaking small world's supply on August 1, and good exports from this country, while fu-tures are less depressed, but exhibit the pressure of expected theral supplies at home and havier crops abroad.

The sugar markets remain dull and

stocks of refined in the channels of distribution are reported small. Raw sugar, however, remains featureless, perhaps awaiting a closer approximation as to the effects of recent or imminent changes in territorial authority on the sagar trade of the world. The textile manufacturing situation is yet a rather clouded one, a shut down of print cloth mills peing regarded an probably another effort to restore the lost balance of this trade.

Woolen goods are still slow of sale, while the relatively low range of wool prices at castern markets and the improved inquiry by manufacturers has stiffened values, with the effect of discouraging sales. Raw cotton is firmer on reports of excessive

rains affect ng crops. Cercal exports still continue of a sat-isfactory volume, wheat shipments for the week (flour included as wheat) aggregating 2,371,872 bushels, as against 2,80,-68 bushels last week, and compared with 2.343,021 bushels in the corresponding week of last year, 2,64% 768 bushels in this week 2,977,957 bushels in 1894.

235.255 bushels in 1894.
Since July 1 this year the exports aggregate 1.204830 bushels, against 8,545,000 bushels Inst year. Corn exports aggregate 2.501.821 bushels, as against 2.521.125 bushels in 1897, 1.435.312 bushels in 1897, 1.435.312 bushels in 1897, 1.435.312 bushels in 1898, and 19780 sensels in 1898, and 19780 and 19780 sensels in 1898, and 19780 and 19 els in 1826, and 119,000 bushels in 1834.

Business failures in the United States remain at a normal low point, aggregating for the week 189, against 188 last week and

The prospect for cotton is generally good Chicago, July 29.—Wheat—Close: July, though too much rain is reported in some 50%, August, 66; September, 64; December, southwestern states. The manufacture is 640.64%, May, 60%. a little encouraged by better demand, Corn-July, High though prices did not improve. The offer to curtail productions at Fall River has been checked by refusal of mills at other points to re-operate.

The sales of word show a remarkable because in large transactions for which the first Desemble.

Increase in large transactions for which no prices are named, four being quared at Boston covering 260,000 pounds, and the aggregate at the three chief markets 400 were domestic. The demand for goods !

is rather befor.

glish marks have a firmer stand against the Continents: mirks. Carriage build-ers again enquire for qualities from Belgium. Enamelied iron goods meet with a very fair demand-the price of fuel here nally for a thin wake of coaking utentil Small articles (sundry) all come from Germany, and are of the very ceapest description to suit the native consumer's pocket. Earthen and glassware demand calls for steady supplies, and the commoner quality emanating from Germany. and the better class from the United King

iom. The total imports of paints and oils

thits year show a decrease; well known

English marks are conspicuous by their

ow qualities as find consumption. Paper cartridge, packing and organette-comfrom Spain, France and Germany, and receipts show an increase for 1881. cigarete paper, Spain divides the honor with France and Austria, and supplies must of necessity be steady. The past New York, July 28.-Bradstreet's finanty year shows a large increase both in raw and tinned comestibles, England, Germany and Spain providing nearly all, the American products are 150 expensive, and are therefore not in great demand. Winesin bulk also show an increase; but supplies of beer have diminished considerably Consul Walker also reports some interesting facts about harbor improvements kind, the public being still out of the Which were under way at Manila when he market, while Loudon has continued in. wrote. He says: "I enclose with this remarket, while London has continued in-active. Large financial interests however, this port, which have been under construcmon-new for some years. I am indebted the situation, not only as regards the for the plan to the courtesy of the super peace outlook, but in relation to the crops intending engineer. Senor Don Eduardo and to railroad rates. The conflicting Lopes Navarro. The works when com-crop accounts from the west seem, in the pleted will be a great boon to shipping in view of Wall Street, not to disturb the general that have now to ride outside in presumption that the grain yield will be the roadstead or buy some 180 or three cry large and afford a heavy export bal- miles from Manila. Steamers drawing lithave also shown a disposition to restore river Punit. Those engaged in theh China rates and stop cutting. Some action of trade, and running between Hongkong and this kind was certainly rendered necessary. Manilla under the British flag, discharge by the uninversible elatements of June the bulk of their cargoes in lighters in net earnings, which are coming out in the bay and thin enter the river Pasig some instances. Another factor in the to continue discharging the remainder market is the general belief that considerable gold will come from abroad this loading the steamers for Hongkong, VIL.

to disturb the money market has produced during the typhoon season, and when the a favorable impression, both at home and notice of three bulls is heated as asignal abroad.

by the harbor minuser that a gale is harge dealings in the new Es have been impending, then the vessels have to heave recorded, deliverable when issued, the up their anchors and make a run across pric rising to 19491042-4. At the same the day to Cavite, which is three miles time other classes of governments have distant, where there is a naval and matthe risen sharply from % to 1% per cent in dockyard, as well as shelter. When the the different issues. This is probably due works are concluded at the port of Manto the fact that the new bend issue has its there will be an abundance of room caused no decided selling of the older not only for men-of-war but for all kinds of mercantile craft seeking to discharge tendance, 2.160. their cargoes, or coming in ballast seek Paris, July 28.-Prices were firm on the ling freight. The government are also exbourse today. Italians were heavier pecting a floating naval dock from Europe Spanish fours started with an advance, to be placed in the bay at Subject some were afterwards agitated, fluctuated and twelve hours steam from the port of Man-7.2 closed quiet, steady. There was a bitter lia. British engineers have already ag-demand for Brazillans owing to the rise sived from England to superintend the in the rate of exchange.
